

COMPLAINTS HANDLING POLICY AND PROCEDURES

This document sets out the Fast Invest Ltd (further in the text - the Company, we) policy and procedures for dealing with customer complaints.

The Company views complaints as an opportunity to learn and improve for the future, as well as a chance to put things right for the customer that has made the complaint.

We are committed to providing quality services for our customers and continuously seeking ways in which we can improve the level of our business services that our assignees, customers (further in the text – customers) receive.

It is very important for us to ensure that our customers are happy with our services.

We value our customers. Therefore, it is imperative that we deal appropriately, fairly and professionally with customers who may have raised issues relating to our services or our business, whether their complaint is justified or not.

Adopting a pro-active and positive approach to complaints handling will increase customer confidence in our services. Contributing to this objective is the way we handle complaints.

We also conduct reviews of complaints received and the outcomes of those complaints. Investigating complaints can provide useful insight into the suitability and appropriateness of our internal operating policies and procedures, ensuring they are in line with our customers' expectations.
